

dermalogica® ACADEMY

beauty school? that's not us.
esthetician? we prefer skin therapist.

The fluffy pink robe, rose petal steam-and-cream days of beauty are over. It's no longer about "pretty"... it's about healthy skin and the results clients are looking to achieve.

Dermalogica Academy is focused on skin therapy, from the basics to the latest advanced treatment innovations and technologies. You'll train for a new standard in the industry, where highly-trained skin care professionals provide information, education and results – not hype. At Dermalogica Academy, you can turn your passion for skin care into a rewarding career with financial success.

who better than dermalogica to prepare you to pass the state licensing exam?

Our goal today is what it was 25 years ago: train the best skin therapists in the world with the latest technology. While we take your training seriously, we don't take ourselves too seriously. We've been redefining skin and body therapy for over 25 years and having a lot of fun all along the way.

Our core principles of education, innovation and information come together in a new way at the Academy. We've developed a progressive learning environment that doesn't just simulate the real world: it is the real world with real clients, award winning products and proven techniques, for the knowledge, confidence and experience you'll need to launch a lifetime of success in the industry.

dermalogica academy has been designed around five unique learning centers:

the classroom is where you'll discover the science of skin therapy using the latest technology and interactive modules that are customized to your unique learning style. Always fascinating... we promise.

the lab is where we put your hands to work in the practice of skin therapy, developing your technique to discover your own personal power of touch. You'll learn how to professionally cleanse the skin, give a fantastic facial massage and explore laser, sonic and micro-current treatments.

At **skin barSM**, you'll expertly guide clients in performing their own daily regimen, discussing their specific skin concerns, identifying issues and prescribing solutions.

microZone[®] is an innovative treatment concept where time-compressed clients can receive a targeted treatment that is zone-specific. It's the ultimate quick-fix for troubled skin in just 20 minutes and a great way to build a clientele.

In **the treatment room**, a thorough consultation and Face Mapping[®] skin analysis leads you to design and give a customized skin treatment that delivers immediate results.

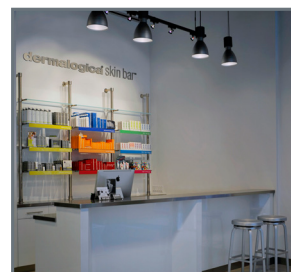

the program

Just like Dermalogica products, Dermalogica Academy's advanced curriculum is the only undergraduate program researched and developed by The International Dermal Institute, the premier provider of postgraduate skin and body therapy education in the world. The course guides you through the anatomy and physiology of skin as you develop your hands-on skill. From there you'll progress to advanced therapies, paramedical procedures and professional make-up artistry. Your learning experience is enhanced through interactive Smartboards, podcasts and the best skin care equipment to ensure you're industry ready!

You'll need to know how to market and manage a profitable practice. We've incorporated every aspect of the skill set you'll need to succeed, from performing painless extractions and waxing to promoting your business through Facebook and beyond.

Dermalogica Academy fully prepares you to pass the state licensing exam and jump start your career as a licensed professional. With a Dermalogica Academy credential, your skills and knowledge will be in demand, recognized and respected worldwide. But our commitment to you doesn't end at graduation. Continue your education with post graduate master classes at the International Dermal Institute. Connect with our global network of salons, spas and medical practices seeking Dermalogica-trained Skin Therapists – giving you the option of working anywhere in the world.

we're passionate about what we do and thrive on making a difference everyday.

Our aim is to inspire you to be one of the best Professional Skin Therapists in the world by providing you with the tools you'll need to achieve success in our industry... and in life.

We encourage you to find out for yourself. Come visit us, receive a complementary treatment, attend a class or just spend some time with us to see if Dermalogica Academy is the right place for you.
